Your Health in our Hands

Professional Medical Fees 2019

Settlement of fees are requested on day of appointment and can be settled via ApplePay, on-line banking or by debit or credit card. We also accept cash or cheques. An administration fee will be incurred where invoices are required to be posted or emailed. NB: UK Health Insurance Companies do not usually cover the costs of GP consultations. All tests MUST be paid for in advance.

There is no Annual Registration Fee. However for new patients we request a Registration Booking Fee of £50 which is refundable on the first appointment.

Patients MUST notify the Secretariat if an appointment is no longer required.

We reserve the right to charge full Cancellation Fees when less than 24 hours' notice is given.
