

Public lecture

Tuesday 5th June

The Independent Doctors Federation Education Trust is pleased to host the first evening lecture for members of the public.

The Thyroid demystified - You and your thyroid **Dr Mark Vanderpump**

What and where is the thyroid? What is its role?
The unique importance of iodine to the thyroid.
Who needs a test of thyroid function?
Diseases of the thyroid: too much, too little and lumps
What are the available treatments when it goes wrong?

All in Your Genes: Demystifying Genetics Tests **Professor Phil Beales**

Professor Beales will speak about the current wave of consumer genetics testing available and explore what health information they offer and the evidence on which they are based.

6.30pm - 9.00pm
Medical Society of London
11 Chandos Street, London W1G 9EB
Join us for canapes and drinks after.
